The Wisconsin Tradition
In 1890, The University of Wisconsin established the first dairy school in the United States. Since then the University of Wisconsin and University of Minnesota have trained over 15,000 students in various dairy manufacturing short courses. The University of Wisconsin and University of Minnesota house two of the premier dairy research centers in the United States. Both universities continue to serve as leaders in dairy manufacturing programs for the dairy industry.

Purpose
The Applied Dairy Chemistry Short Course is an intensive two-day course covering the chemistry of milk and milk products as they relate to specific dairy processing and control functions. It will provide a better understanding of the chemical and physical changes taking place during processing and storage of dairy products and how these may impact the overall quality. The course is designed for students that have had high school chemistry.

When
Tuesday and Wednesday, May 7 & 8, 2019. Check-in begins at 8:00 a.m. on Tuesday, May 8 with classes beginning at 8:30 a.m. Classes begin at 8:00 a.m. on Wednesday.

Where
Room 205 Babcock Hall, 1605 Linden Drive, University of Wisconsin-Madison campus. Parking is restricted and must be arranged through the campus Transportation Services office at: https://transportation.wisc.edu.

Registration Fees
The fee of $350.00 covers the cost of instructional materials, lab supplies, speaker and staff expenses, handouts, lunch (Tuesday) and registration for the two-day short course. Lodging, parking and other meals are not covered in the registration fee.
