- Patty Hoppe at 608-224-4704

GREAT JOB

- Paperwork
- Communication
- Resource Manual
Goat Milk Somatic Cell Count

- Emergency Rule effective February 4, 2010
- 1,500,000 per ml.
- Eliminates immediate response limit and actions

Performance Based Farm Inspection

- Adjustments being made
**Tanker and BMWS Inspections**

- Enforcement Scores related to Tanker and BMWS inspections are up

**Definition of a Direct Ship Farm**

- A tanker that is parked on an impervious slab
- A tanker that is sealed to the milk house
- All valve connections are made from inside the milk house
- The tanker has an outlet valve that can be sealed
- All other requirements of s. ATCP 60.11 (4), Wis. Adm. Code are also met
What is not a Direct Ship Farm

- Milk is pumped into a tanker that is located away from the milkhouse.

EVEN IF....the only milk on the tanker is from that single farm.
Confusion Abounds

Rule Requirement Reference
s. ATCP 82.10(8) Measuring Milk in the bulk tank
Before milk is transferred from a dairy farm bulk tank to a bulk milk tanker, the milk hauler shall accurately measure, record the weight and collect a representative sample

Existing Situations?
Existing approved, non-complying, systems have 3 years to comply
Unique Milk Pick up Situations

- Multiple tanks
- Partial Pick ups
- Transferring milk into cans or totes
- Something other than strict definition of Direct Tanker Shipment
- Call us

Dry Status vs. OB

- When a producer sells the herd, they are Out of Business and not in Dry Status!
- Can remain in dry status 180 days
- Plant must notify department within 3 days when shipments resume
- If the plant terminates the producer, the license will be revoked after 30 days
Livestock Premises Registration

- A Livestock Premises Registration number is still required for Dairy Farm licensing
- Contact Information:
  - www.datcp.state.wi.us/premises
  - Call WLIC to request a form
    - 1-888-808-1910

Pasteurizers in Parlors

- Not allowed in parlors used to CIP and store equipment
- Not allowed in milkhouses
Raw Milk & Raw Milk Product Sales

- No separating milk on the farm and reintroducing the milk into the bulk tank for sale to dairy plants
- Raw Milk Advisory Committee
- Legislation
